Jeff Slavin

Lead Technical Writer | API, Cloud & Edge | Docs as Code & GitOps

Miami, FL | 561-305-5610 | jslavin.docs@gmail.com | LinkedIn | Portfolio

SUMMARY

Technical writer and documentation lead with 10+ years across API, cloud, edge, IoT, and DevSecOps. Owns user and developer documentation end to end, spanning information architecture, Docs as Code, and content structured for self-service and AI retrieval. Cuts support tickets by 30% and takes partner integrations from weeks to days.

EXPERIENCE

Artisan Studios, Senior Technical Writer (Nov 2024 – present) – Remote

- Author design documentation for the Artisan Edge Platform on AWS (Kubernetes, Argo CD, GitOps), whose rollout cut retail client hardware costs by 40%
- Create process flow and network topology diagrams from working sessions with solutions architects and developers, shortening architecture review cycles by 25%
- Codify triage, diagnostics, and escalation for 65 Prometheus alerts in the DevSecOps runbook used by on-call engineers
- Write the 160-page user guide for managing clusters, nodes, namespaces, workloads, and applications across distributed edge locations
- Document the IAM model, secrets management, and certificate handling for machine-to-machine and user authentication

ClearBlade, Lead Technical Writer (Oct 2022 – Nov 2024) – Remote

- Owned three product documentation sets end to end, standardizing topic-type architecture and templates on the developer platforms
- Implemented a Git-based Docs as Code workflow with CI/CD publishing, maintaining SDK and library documentation across 23 repositories
- Wrote the OpenAPI spec descriptions used to generate the interactive API reference and SDKs, reducing partner integration time from weeks to days
- Authored the migration guides for 250+ GCP IoT Core customers who moved to ClearBlade, cutting support tickets by 30%
- Rebuilt Confluence content into a self-service portal in Scroll Sites, with a new taxonomy that raised search success rates by 60%
- Restructured Confluence topics to be self-contained and consistently labeled, then revised them to improve Rovo's RAG-based AI answers across question types
- Advised the technical support organization on end-user documentation practices, shaping how the team delivered guidance to customers

ODEM, Technical Writer (Mar 2018 – Oct 2022) – Remote

- Built the knowledge base for a Web3 credentialing platform that issued 4,800+ blockchain diplomas, covering onboarding, wallet setup, and credential verification
- Detailed 14 smart contract use cases with swimlane diagrams, platform screenshots, and a glossary for the 28-page Program Staking and Token Architecture white paper
- Wrote the Ethereum-to-Algorand migration guides for ODEM token and credential holders

MobiWork, Technical Writer (Feb 2017 – Nov 2017) – Delray Beach, FL

- Delivered a mobile-first knowledge base for a workforce management SaaS platform, covering field technician workflows, scheduling, and client onboarding

AT&T (Randstad Technologies), Technical Writer (Jun 2014 – Dec 2016) – Remote

- Standardized ITIL-compliant service assurance workflows for network operations, developing the interface agreements and job aids that route cross-team escalations

SKILLS

- **Documentation Strategy**: Content Strategy, Information Architecture, Taxonomy and Metadata, Style Guide Development
- **AI-Ready Documentation**: RAG Content Structuring, Prompt Engineering, LLM-Ready Docs (llms.txt), Agent Skills (skill.md), Codex, Claude Code, GitHub Copilot
- **Deliverables**: REST API Reference and SDK Documentation, Knowledge Bases, Quick Starts and Tutorials, Migration Guides, Administrator and User Guides, Runbooks
- **Cloud and Infrastructure**: AWS, GCP, Amazon EKS, Kubernetes, Docker, Terraform, Argo CD, Prometheus, Grafana, Linux
- **Documentation Tools**: MkDocs, GitBook, Confluence, Scroll Sites, Zendesk, Mermaid, Lucidchart
- **Development and Automation**: Git, GitHub Actions, Bitbucket, Jenkins, Jira, Postman, OpenAPI, Swagger, Python, Bash, YAML, JSON, Markdown
- **Methodologies**: Docs as Code, GitOps, DevOps, DevSecOps, CI/CD, Agile/Scrum

CERTIFICATIONS

PMP, ITIL Expert

EDUCATION

MBA, BBA (Management Information Systems) – Florida Atlantic University
